For the prevention and cure o
BILIOUS AND MALIGNANT FEVERS
is recommended
HAHN's ANTI BILIOUS PILLS

THIS Medicine has been attended with a degree of success highly grateful to the inventor a feelings in several parts of the West Indies and in the Southern and Middle States, &c.

The testimony of a number of person can be adduced, who have reason to believe that a timely use of this salutary remedy has, under Providence, preserved their lives when in the most alarming circumstances.

Facts of this conclusive nature speak more in favour of a medicine than columns of pompous eulogy founded on mere assertion.

It is not indeed presumptuously proposed as an infallible cure, but the inventor has every possible reason that can result from extensive experience for believing that a dose of these Pills taken once in every two weeks during the prevalence of our bilious fevers, will prove an infallible preventive; and further, that in the earlier stages of those diseases their use will very generally succeed in restoring health, and frequently in cases esteemed desperate and beyond the power of common remedies.

The operation of these pills is perfectly mild, so as to be used with safety by persons in every situation and of every age.

They are excellently adapted to carry off superfluous bile and prevent its morbid secretions—to restore and amend the appetite—to produce a free perspiration and thereby prevent colds which are often of fatal consequences. A dose never fails to remove a cold if taken on its first appearance: they are celebrated for removing habitual costiveness—sickness at the stomach and severe head-ache—and ought to be taken by all persons on a change of climate.

They have been found remarkably efficatious in preventing and curing disorders attendant on long voyages, and should be procured and carefully preserved for use by every seaman.

Fan-Sash Making

METAL FAN-SASHES, of various descriptions, will be made by the subscriber, at his shop, lower end of Duke street. The want of a Metal Fan-Sash Manufactory in Alexandria, has hitherto been severely felt by builders and others, who have been compelled to make use of wood, which is neither elegant nor durable. The various forms into which the metal can be shaped have given it a decided superiority, and the difference in the price is very trifling. The subscriber has been at considerable expence in procuring the necessary preparations, and relies on public enterprise for success in the undertaking.
Gentlemen in the country, by sending the dimensions of their sashes, can have them made at the same price as it in town.

Proposals

FOR Publishing by Subscription, and now ready for the press, a series of historical volumes, which when finished will assume the title of
Universal History Americanised;
Or, an historical view of
Europe, Asia, Africa and America,
from the earliest records to the nineteenth century—with a particular reference to the state of society, literature, religion, and form of government in the United States of America.
BY DAVID RAMSAY, M. D.
"Life is so short and time so valuable, that it were happy for us if all great works were reduced to their quintessence." *Sir William Jones.*

PROSPECTUS.

ASIA.

The Asiatic part of this work contains a general view of the antediluvians—of the general deluge—of the re-settlement of the Globe after that great event—of the primitive post-diluvian nations which were formed in Asia, the cradle of the world. Their various ramifications, revolutions, and of the general course of Empire.

AFRICA.

The African part, contains a concise history of Egypt, Carthage, Numidia, Mauritania, Abyssinia, of the Piratical States, and the Hottentots, with a grouped view of its uncivilized settlements.

EUROPE.

The European part, contains the history of Greece and Rome, from their origin to their dissolution—of the various nations which were conquered by them—and of the nations by which the Romans themselves were finally conquered, and of the nations which were formed from the fragments of the Roman Empire, and the various revolutions of the latter, together with a view of the nations which never were subjected to the Romans.

AMERICA.

The American part, contains a general history of the Western continent, under the heads of Free, European, and Aboriginal or unconquered America. The first contains a history of the United States, from their first settlement as English Colonies, till the present time.—The second, of all parts dependant on Europe.—And the third, of all that are still owned by the Aborigines.

It is expected that the whole will be comprised in 10 or 12 octavo volumes, of between four and five hundred pages each—to be printed in Philadelphia, on good paper and fair types, for $3 1-3 per volume, in sheep binding, or $4 1-3 Calf Gilt, to be paid for on delivery.

AUTHORITIES.

This work has been in contemplation upwards of 40 years. The project of it was conceived in 1786, on reading the Universal History, then recently edited in 60 volumes, by a society of gentlemen in England. The original idea of extracting the quintessence of that voluminous work, which contained the most complete system of history the world had then seen, has ever since been enlarging and improving by an attentive perusal of the histories written by Robertson, Hume, Gibbon, and other modern authors—of the Asiatic researches—of the works of Sir William Jones, and other learned Orientalists—the publications of intelligent travellers, who, in the course of the last half century have explored almost every region of the Globe. These collectively, have thrown a blaze of light on countries comparatively unknown, and on portions, both of ancient and modern history which were confused and obscure at the period when the writers of the Universal History published their work. The arrangement of materials collected from these sources commenced in the year 1780, when, in consequence of the surrender of Charleston to Sir Henry Clinton, the author was suddenly released from a sea of business and sent as a prisoner of war to the British Garrison then in St. Augustine, and there confined for eleven months, without any peculiar employment. Steady progress has been made for the last ten years in correcting and transcribing the work for publication.

UNITED STATES.

The History of the United States is given at full length—that of foreign countries is more or less expended or contracted in proportion to the intrinsic importance of each—its tendency to illustrate portions of Holy Writ—the Greek and Latin Classics—and also in proportion to its connexion with the U. States, or as furnishing useful practical information to its citizens, or as the paternal soil of their ancestors.

The above sketch of the nature and objects of this immense work, which has occupied the attention of the Author for upwards of 40 years, was found among his papers, and is now given to the public in his own words. Since that period, a few chapters have been added by the Reverend SAMUEL STANHOPE SMITH, which brings it down to the close of the last war.

The publication commences with a third impression of the History of the U. States, in three volumes, which is all that has ever appeared. The whole will not be delivered under 15 or 20 months. It is proper to state, that the gentlemen who have the direction of it are neither booksellers nor printers, and receive no pecuniary consideration for their trouble—but are willing to make the necessary advances to carry it into execution provided the sale is warranted by public patronage. The profits arising are to be appropriated for the support and education of his children, four of each sex; to them its success is a matter of deep importance.

MONDAY, MAY 11, 1818.

FOR THE ALEXANDRIA GAZETTE.

Looking over a volume of Sterne's Tristram Shandy, a few days ago, I was struck with the motto prefixed to one of the volumes, as containing a profound truth of which few of us in this life seem to be perfectly aware It is in Greek, and therefore I will not give it in the words of the original, which it might cost some trouble to print, & after all not be understood perhaps by one reader in five hundred. Construed into the most plain and exact English, it is this—"It is not facts but the opinions of men respecting those facts which disturb mankind.—Hence it is that happiness is said to consist in the mind—or as the old wise law has it "that every man's mind is a kingdom to him." And truly when we see such a diversity, and contrariety of opinions respecting what is good, and what bad, in every thing connected with human affairs, we must be compelled to acknowledge that whether any one of a multitude of things in this life touching the good or bad quality of which, we are so apt to worry and tear each other's eyes out, is in itself positively good or bad, may reasonably be doubted.

Let us for example take the single article of civil government, that *happy* science of which so many think themselves ready made masters on their entrance into life—and you will find that there is scarcely one of them respecting the intrinsic value of which there are not such decided differences of opinion, that of three able men, well versed in such things, one shall be sincerely, firmly, and unalterably of opinion that it is good—another that it is execrably bad, and a third that it is neither the one nor the other, but a very nullity. While each is ready to maintain his opinion at the hazard of his life—nay is too often, nothing loath to cut a fellow creature's throat on the occasion. We, in this Union, think that democracy is the only system under which man can be safe and happy, and regard as little superior to brutes, in intellect and spirit, those who truckle to any other kind of government—absolute monarchy we regard as so utterly intolerable that we wonder how the wretches subjected to it are able to live—that they do not expire with horror and sink beneath the hardships and galling of their chains. Even the mixed government of Great Britain seems scarcely tolerable to us: and we cannot imagine a Spaniard, a Portuguese or an Italian to walk thro' the streets without hearing the clank of his fetters rattling in our ears. All the while the Spaniards and Portuguese feel a similar persuasion respecting us, and think that as republicans we are consigned to a state of ineffable misery here and hereafter; and do actually endure a condition which we think would be worse than death without murmuring or even imagining it painful or degrading. All this difference of condition subsists purely in the mind. They believe it to be good, and are happy in that belief.—At a time that the government of England was regarded by every philosopher and enlightened man in the world as the most perfect and free of all others, the people of England were proverbially discontented and miserable—incessantly bemoaning the badness of the times, the corruption of ministers, the danger of the constitution, and breaking their hearts individually at the approaching downfall of liberty. Meanwhile, the gay Frenchman, bending to the despotic will of the *grand monarque*, and whom his neighbor John Bull, regarded with contempt and pity, as a slave was for ever as happy and as blithe as a bird, in a spring morning, and sung in his cage as merrily as a lark. Now, what sort of a casuist must he be, who would say that the condition of the Englishman growling in discontent over his unequalled means of felicity, and amidst all the blessings which liberty and plenty and independence could supply, was superior to that of the Frenchman, who under the name of despotism was allowed by every one to enjoy in a greater degree than any other person that first of blessings—the sunshine of the heart. Such was then (I mean in the far greater part of the last century) their attachment to a despotic government—such their blind attachment to their sovereign, not as the father of the nation, but as "the god of their idolatry," that it may be questioned whether they would have accepted of a free constitution, had it been offered to them. But a band of able men rose up among them; produced a complete revolution in their opinions; rendered them discontented with their government and enamoured of liberty; they felt their feelings changed; they purchased the gratification of their new desires with oceans of their blood, and they became as moody and discontented and miserable as the most free and independent of their neighbors.

GEN. ST. CLAIR.

The Salem Gazette, contains a letter from the western country, to the editor, giving an affecting narrative of the brave Gen. St. Clair. "On our journey," says the writer, "we stopped at his *log house* to warm us. He was then confined to his chamber with illness. His wife exhibited a striking picture of fallen greatness. She was a tall majestic figure. 86 years of age, (I think she said.) Her features were noble, and her deportment lady like. She is of the Bowdoin family of Boston. The substantial part of her dress was of the coarse fabric of the country, to which were superadded such ornamental articles as were in fashion probably 40 or 50 years ago, and which, like herself, bore visible marks of the hand of time. She conversed with a Frenchman, a fellow passenger with us, in his language, which was familiar to her. Her manners also were French.* But time and sorrow had evidently weakened her mind, which, judging from her countenance, was originally vigorous. This mental debility was strikingly exhibited in her confounding important events of distant dates, and almost forgetting that we had an American government. Her latter ideas were obliterated, and those of early youth had assumed their place. Mrs. —— was extremely affected with the picture which I have so imperfectly sketched, and for a long time could not speak of it without shedding tears."

* Elliott's Biographical Dictionary informs us, that the ancestors of the Bowdoin family were French refugees, who left their country after the revocation of the edict of Nantz; that they first went to Ireland, and then came to New-England in 1688.

SOMETHING NEW.

We have seen a new modelled rifle gun, which promises to be of some consequence, and is said to be the invention of capt. Artimas Wheeler, of this town. We have not had sufficient opportunity to examine it so minutely as to give a description of it that would do it justice; we are inclined to think it a new and important invention, more particularly in case of an action with an enemy. It has one barrel through which the charges pass, that is of common length, also seven short ones, not much longer than sufficient to contain a charge each; these have a pan attached to them to contain powder for priming, and are kept perfectly tight by a slide that covers them: these barrels are made to move circularly round, near the lock, which is also of new construction; after firing the first charge, the half cocking moves by a spring one of these short barrels round, and confines it tight in the breech end of the long barrel, through which the charge must pass; the shutting the pan of the lock opens the slide which covers the priming. This gun is but little heavier than the common one, and when once loaded, which requires little more time than the common rifle, it can be fired as expeditiously as will be convenient to cock the piece and take sight, until the seven are discharged.

GAS FROM TURF.

The principle of obtaining illumination from gas, that is to say, from the inflammable vapor obtained in matter susceptible of being burnt, has received a new developement in the instance of turf, by means of a new apparatus invented by M. Coningm, a preacher of the Dutch Church at Amsterdam.

His experiments were made in May last, in the presense of a committee named by the Royal Institution of Sciences, and by the governor of the province of North Holland and Antwerp This apparatus has been found more simple, and therefore not so costly as those constructed in London, while the quantity of light has been greater The object of obtaining light from turf must be very great in Holland, but, moreover, this instrument, if really more simple, might furnish a hint to those applied to the purpose of procuring light from coal. [*Lon. pap.*

DIFFERENT TASTES.

A miserly old gentleman, who had a very dissipated son, being asked "why he toiled so hard to hoard up money which he knew his son would squander as soon as he was gone," replied, "if my son has half the pleasure in spending that I have in saving, I shall be well satisfied."

Raleigh, (N. C.) April 24.

REMARKABLE WEATHER.

I believe few persons remember so extraordinary a season as the present spring has been in this latitude. It is now near the close of April, and we are forced to use large fires, as if it were the middle of winter. On Monday morning, there was ice in various places, nearly half an inch thick: and on that and on the preceding day, snow fell in small quantities—at Hillsborough, sufficient to be perceptible on the ground. The consequence will be an utter disappointment in the expectation of fruit, in regard to which appearances had been hitherto quite flattering.

We understand, that the brig Rambler, recently arrived at Providence, brought home, from Canton, 90 000 dollars in specie! Such had been her success in a trading voyage, that the above sum was over after the purchase of her cargo at Canton. The Rambler performed a voyage round the world in fifteen months and twenty days! seven months and ten days of the time she lay in port. [*N. Y. Gaz.*

The brig Mary and Eliza, Kinsman, has arrived at Boston in 59 days from Messina. Left there, the U. S. line of battle ships Washington and Franklin, frigate United States, sloops of war Erie and Spark. The Peacock had gone to Marseilles for the American consul.—Capt. K. states, that the Washington, com. Chauncey, was to sail for home about the 1st of April.

From the N. Y. Com. Adver. May 4.

SHIPWRECK.

In the brig *Cannon*, capt. Delano, from Hamburg, came passenger Mr. Gardiner, late the second officer of the brig *Jane Coats*, Burrows, of Richmond, who has communicated to us the following melancholy account of the loss of that vessel:—

The Jane Coats, sailed from London, on the 2d of July, for Charleston. On the 22d of August, in lat. 35, 30, long. 52, 30, she was capsized in a heavy gale, and excepting Mr. Gardiner, every soul on board, twenty-one in number, perished. Mr. Gardiner continued on the cotton until morning; when she righted.—The tafrail only remained above water, to which he lashed himself, and continued five days, without food, when he was providentially relieved by the Danish brig Frederick the VIth, from St. Thomas, bound to Hamburg, and was landed at that port. Thence he sailed on board a ship bound to the United States, and after being out several days, was obliged to put back in distress. Mr. G. then took passage in the Cannon. The following is a list of the passengers who perished—Captain W. Billings, of Boston, Mr. Vertine, of Germany, Mr. Rousenbergh, of do Mrs. Cowen and five children, Mr. and Mrs. West, and child, Mrs. Rutledge and two children, Mrs. Dubar and two daughters, Mrs. Pollock, Mr. Jordan and Mr. E. Cowen.

SPANISH GRATITUDE.

A statement of the important and humane exertions of Captain A. S. Dungan, in rescuing the terrified inhabitants of Laguayra and their property from, as they believed, impending destruction, and of his generous refusal to receive any compensation for his highly meritorious and useful exertions, as certified by three respectable residents of that place, who were witnesses of the transaction, was published some time since in the Gazette. The following narrative, from a letter written by capt. Dungan, will explain how gratefully and humanely he was treated by the very people whose lives and property he preserved at the risk of his own.

"It was my unhappy lot to be in La Guayra at the embarkation on the 18th and 19th of February. I was anxious, from motives of humanity, to assist, as much as was in my power, the distressed inhabitants. Early on the 19th. I was requested by Mr. Frederick Leny, merchant of Curracoa, some time resident at Caraccas, to assist him with my boat to take on board his property, consisting of several trunks; which I readily complied with, and by great exertion effected. The surf was unusually high, and we were compelled to heave the trunks into the boat, frequently at a great distance; some of them were consequently broken, and in this manner put on board the Eliza William, under my command. More effectually to secure them, I took all my men, except two and the mate, into the boat, and attended myself to facilitate the embarkation. Such unlimited confidence did I repose in my steward, that I confided those articles to his charge when on board.

On the 20th the alarm subsided, and the inhabitants disembarked.

Mr. Leny requested me to re-land his trunks. I immediately complied without suspecting that any property had been taken out of them.

Nothing further occurred until March 4th; when, about to leave the port, and every preparation making to expedite my departure, my vessel was taken possession of by the authority of the commandant of La Guayra.

Mr. Leny had, during the embarkation, put on board, without my consent, the baggage of a colonel in the Spanish army, one of whose trunks was broken by the violence of throwing into the boat, containing, with his clothes,

Plate, value	$400
Doubloons	224
Mackakena of the country	200

This temptation was too great an inducement for my steward's honesty; who, with the seamen on board, took this amount from the trunks.

This robbery was discovered immediately after the trunks arrived on shore; yet, astonishing to relate, nothing was permitted to transpire relative to the circumstances, until I was about to leave the port. They took this advantage, well aware that, however unjust their proceedings, at that time I would be compelled to pay the amount, or commence a suit where the injustice of judicial decisions is proverbial; and, even if not adjudged to pay the amount, the detention would be more injurious to me and the owners. This is the manner in which I was treated, after straining every nerve to serve them, and without any pecuniary motives. It is true they offered payment, which I refused; and, so help me Heaven, never did, nor would receive from them one farthing, although I destroyed a boat valued at $100. But to return: On the 4th my vessel was seized, searched, and in the possession of my steward was found the plate and doubloons; nothing then remained unturned to discover the remainder of my property—but to no effect. I gave the steward and all concerned up to the authority, and requested permission to proceed on the voyage—This was refused me without paying the following amount:

Mackakena	$200
The bottom of a candlestick, silver	50
Silver Corkscrew	20
Razor case broken open, without any injury except the hasp	40
	$310

with all charges attending the process.—This unjust charge I refused to comply with, and was tauntingly ordered to pay the amount, or remain with them.

Mr. Leny, possessing influence sufficient to have relieved me, was a calm spectator of this unjust proceeding, without interposing his power to relieve me from the payment, or from the cruel imputation of being myself a partner in the transaction: and, when I expostulated with the commandant, was ordered from his presence.

Had they have done me justice, they would, when they discovered the robbery, immediately informed me, the articles would then have been found without difficulty. But they took this opportunity and exulted in attempting to brand with infamy a man who risqued every thing to serve them, from no other cause than his being an American. Mr. Gerard Patrola, my consignee, was equally unconcerned as to my fate or feelings: and when requesting his assistance, he declared himself the friend of the colonel, and that however unjust, he would see him reimbursed before he suffered my vessel to depart. When I would accost the Spaniards in the street, some of whom I had served, and state the unjust proceedings; they would acknowledge their injustice, and lament the cause; yet, when strangers would pass, they would point me out as the American who had plundered the trunks of the Spanish colonel.

Such has been the conduct of Spaniards who, on the day of embarkation, would have given me any amount to have rendered them the like services. I was frequently offered $100 to take one family on board, but refused, for the purpose of more effectually assisting those that were unable to pay for boats.

In the Aurora of May 4 a letter is published, dated March 17th, 1818, in which it is stated, "that since the seizing of Amelia Island by our government, Ferdinand the VII. has granted to several of his favorites, immense tracts of land in the Florida-," and gives the following as a translation of a transcript from the Spanish: [*ibid.*

Cession of Land made by His Catholic Majesty to the Duke of Allagon.

"All the uncultivated land, which has not already been granted in East Florida and which lies between the banks of the rivers St. Louisa and St. Johns to their entrance in the sea, and the coast of the Gulph of Florida and the islands adjacent, within the entrance or mouth of the river Hirpuelos, in the 26th degree of latitude, following its left bank to its source, drawing a line to Lake Macao from thence down by the road of the river St. Johns to the Lake Valdes, striking by another line from the northern extremity of this Lake, to the source of the river Anania, following its right bank to its mouth, by the 28 and 25 degrees of latitude, and continuing along the coast of the sea, with all the adjacent islands, to the mouth of the river Hispuelos."

Cession of Land made by His Catholic Majesty, to the Conde de Panmes Rostro.

"All the uncultivated lands which have not already been granted in Florida, comprised between the river Perdido to the west of the Gulph of Mexico and the rivers Amaruja and St. Johns, from Pensacola to its outlet in the sea to the eastward; to the northward of the line of demarcation within the United States of America, and to the southward by the Gulph of Mexico, including all the desert islands on the coast."

The letter further states, "the Duke of Alagon has despatched, it is said, to Mr. Serna to the United States."

Communicated for the Balt. Fed. Gazette.

Portland, April 28.

We have been politely favored with the following extracts from a letter, dated on board the U. S frigate Congress, at

"*Rio Janeiro, Brazil. (S. A.)*
February 5, 1818.

"We arrived here on the 29th ult. after a passage of 55 days, all in good health—came for the purpose of getting water and other refreshments. The ship has been visited by a number of officers of high rank of different nations, such as English, Austrians, Portuguese and Spanish. She has been much admired by them all, and spoken of as the finest ship here. This is the first American frigate ever in the place. To-morrow the Regent is to be crowned King of Portugal and Brazil—great preparations are making on shore for the ceremony. The weather at present is excessively warm; indeed, we have had no cold weather since leaving the United States. The houses here are generally two stories high, built of unburnt bricks and plastered over. The city contains at least 100,000 inhabitants, perhaps 150,000, chiefly blacks. There was a large procession yesterday marched through the streets in great solemnity, with images of our Saviour, the Virgin Mary, and all the Saints, accompanied by several hundred friars and a great number of little children dressed very ridiculously, marching by slow music. All the windows and doors of the houses were crowded, and many thousands of the inhabitants lined each side of the streets, every one of whom was obliged to kneel as the procession passed.

The king's palace in the city is situate near the landing place—it is an extensive building, but not elegant. He has a beautiful country seat in the vicinity, about 9 miles distance, where he at present resides. There are some very fine gardens on the borders of the city; but fruit is not so good here, nor so large as was expected. The harbor is one of the best I ever saw, and could be easily fortified to the greatest advantage. The Portuguese have a large number of men of war here, but most of them are in dock out of repair. The country around is mountainous—one peak at the end of the harbor, called Sugar Loaf, is said to be inaccessible from its steepness; it is not so high, however, as some others—one of which is upwards of 2000 feet above the surface of the sea.

"On the day of our arrival we fired 2 salutes, one for the king and another for the admiral, both of which was promptly answered. The U. S. sloop of war Ontario, left here about five weeks since, bound round Cape Horn.

"*February 6.*

"This morning all the forts and ships in the harbor, ourselves included, fired a royal salute of 21 guns each—one Portuguese 74, two Austrian frigates, and the British sloop of war, dressed in flags—it being the day on which the king is to be crowned. the ceremony will take place in the king's chapel, a very elegant building, and very richly decorated.—This is the first king ever crowned in America. (*Evening.*) All the forts and ships fired at sunset 8 royal salutes—the forts & Portuguese ships of war, the church steeples and every building, public and private, on both sides the harbor, are very brilliantly illuminated—fireworks of every description going up from all parts of the town These Portuguese are famous fellows for show, and very little of any thing else.

For Sale.

That very valuable FARM whereon I now reside, containing 628 acres, lying in the county of Fauquier, and State of Va. near the county road leading from Fauquier Court House to Dumfries, about ten miles from the former and twenty from the latter; about thirty from Falmouth, thirty-five from Alexandria, and six from the Buckland Mills, from whence there is a paved road to Alexandria. Any person wishing to vest their money in this kind of property, will find it their interest to call and view this property. There is a large supply of timber conveniently situated, lying at each end of the Farm. There is now a small meadow on it, which produces very abundant crops of grass; there is fifty acres more adjoining, which is equally adapted to the growth of Timothy; the clover has been tried here with great success, without the aid of plaister, which has never been applied, but from experiments which have been made on the adjoining farms, it is ascertained that plaister acts with as much power here as in any other part of the state. This property is well situated to divide, and may be divided to suit purchasers, which would make two farms of 314 acres each, as it may be so divided by running a line from North to South, as to give each lot a full supply of timber; the improvements of one lot are, a comfortable dwelling house with five rooms and a large closet, a portico on one side and a porch on the other, two brick and one stone chimnies, a kitchen and smoke house, with other necessary out houses; a well of excellent water in the yard; also, a young apple orchard, containing 110 trees of choice fruit of different kinds. The other lot has a house with four rooms and a passage, which with a trifling expense may be made very comfortable; a well of excellent water in the yard, and an extensive apple orchard of bearing trees, forward and latte fruit of various kinds. I consider this orchard worth $300 per year. It is deemed unnecessary to say more, as it is presumable, that persons wishing to purchase, will view the premises and judge for themselves. If this property is not disposed of at private sale previous to the 20th day of May next, which would be preferred, it will on that day be exposed to public sale—the sale to commence at 11 o'clock, if fair: if not, the next fair day—terms made known on the day of sale, which will be easy. Any persons wishing to view this property, can be shown it by the subscriber, living on it. After the sale of the above property, will be offered to the highest bidder, all my stock of cattle, sheep, and hogs; household and kitchen furniture, all of excellent quality; plantation utensils, &c. &c. Public Sale.

By virtue of a deed of trust to the subscriber from the late Dr. James Kennedy, jun. for the purposes therein expressed, will be sold, without reserve, on the premises, on Tuesday the 19th of May next, that valuable property situate on the east side of Fairfax-street, 72 feet 3½ inches, to the northward of the intersection of Fairfax and Prince streets, part of which was formerly occupied by the deceased as a druggist shop, and is now in the tenancy of Messrs. Norman & Noyes. It comprehends two Lots, with distinct tenements, which, united, furnish a front on Fairfax-street of 29 feet; 24 feet of which extends the depth of 123 feet 5 inches in a line parallel to Prince street, and the remaining 5 feet extending back 50 feet 10 inches.

A credit will be given of 6, 12 and 18 months upon notes with an approved endorser, bearing interest from the day, and secured by a lien upon the property.

For Sale.

I will sell my property in the town of Alexandria, consisting of a two story Brick House, very convenient and well finished, together with the adjoining Brick Building—the whole in fee simple.

Also, a small FARM, in Fairfax county, near the Fall's Church, ten miles from Alexandria, and eight from Georgetown, consisting of 100 acres. There is on the said Farm a Dwelling House and Smoke House, a young orchard of choice fruit, and most excellent water spring. About 15 acres of the said land are in clover—all under fencing. For further information inquire of the subscriber.

Land for Sale.

THE Subscriber wishes to dispose of the whole or a part of a tract of LAND, containing between 6 and 700 acres, lying within 5 miles of Alexandria and 4 and a half from the Washington bridge, and divided into four parts by the Leesburg road and the turnpike from the Washington bridge to the Little River turnpike. No. 1 contains about 60 acres, has a fine orchard and some young wood, and is partly enclosed.—No. 2, containing about 80, and No. 3 about 150 acres, lay nearest to Alexandria, and are entirely covered with a young growth of hickory and oaks with some wood—these three parts lay admirably for cultivation, and the latter has on it one of the finest springs in the county. No. 4 has on it a two story frame house with two large rooms on a floor, kitchen, laundry and smoke house, together with several tenements, one of which, situated at the junction of the two roads, is an excellent waggon stand, well known by the name of Bonts's Tavern. There are on it also, several orchards, some fine springs, and a never failing stream sufficient for water works: part of it is in cultivation and tolerably well enclosed, with a sufficiency of wood. The three first parts may be had separately, or the whole together at a very moderate price, on the following terms, viz. One-fourth cash—one fourth on the first September next, and the balance in two equal annual payments thereafter, with intesest.—Possession will be given the purchaser immediately. The title is good and free from encumbrance. The premises will be shown by J. B. M'Farling, living thereon, and any application directed to me, in Washington City, will be attended to.

850 Acres of Land for sale.

The subscriber wishes to sell 850 acres of LAND in the upper part of Prince William county, Va. lying immediately on the road leading from Haymarket to Leesburg, and about 3 miles from Aldie mills, from which latter place there is a turnpike road to Alexandria, distant 33 miles. One half of this farm is covered with a heavy growth of timber, such as white oak, black oak hickory, locust, &c. The buildings are all new and in good order. As there is a saw mill erecting on an adjoining farm the timber may be converted into plank with convenience. This land is well watered, and none more susceptible of improvement or better adapted to the use of clover and plaister. Persons desirous of purchasing would do well to call and see it as a great bargain may be had. For terms apply to the subscriber living on the premises.

N. B. If this land is not sold before the first day of October next, it will then be offered at public sale.

600 acres of Land for sale.

THIS Tract is situated in Westmoreland county, Virginia, adjacent to Mr. Garnett Hunter's Plantation, and contiguous to the waters of the Potomac. The neighborhood is good—water excellent, and very desirable situations for building. A considerable proportion of the land is well timbered, besides a good deal of cedar pine and other wood, sufficiently convenient to make it an object for those who may be disposed to send it to market—it is nearly equi-distant from Baltimore, Washington and Norfolk.

Any one wishing to purchase may apply to ROGER JONES,

Alexandria.

Also, a very valuable LOT, containing 140 acres, being a part of the late Mr. John Turberville's tract—within 6 miles of Georgetown, 3 from the Little Falls Bridge, and near to the turnpike leading from thence to Wiley's, in Fairfax county, Va. A great proportion of this land is exceedingly well timbered, and that part which is not, is so recently cleared as to be in an active state for cultivation, and already in a productive condition.—For terms, apply to PHILIP C. JONES, esq. in Leesburg, Va. or to R JONES.

Valuable Family Medicines.

JUST received, direct from the proprietors, the following valuable MEDICINES, all of which have been in use for a number of years past, in almost every part of the United States; have been highly patronized by people of the first respectability; and approved by those who have had occasion to make use of them, for the cure of those disorders for which they are severally calculated.

Dr. Lee's Genuine (Windham) Bilious Pills,

Universally known and used throughout the United States as a family medicine. The fame of these pills has become so great, that many have attempted to counterfeit them—to guard against this, the proprietors have procured a stereotype label, and each box of Genuine Lee's Pills will hereafter be enclosed in one of these labels, with these words on the sides: "Lee's Genuine Windham Bilious Pills," and on the end of the label the words, "Samuel Lee, patentee, &c. I. Thompson, agent, joint proprietor," &c. and should any be offered for sale without said label on them, the purchaser may be apprised that they are counterfeit.

Dr. Thompson's celebrated Eye Water,

For the cure of inflamed and sore eyes of almost every description. This valuable preparation comes highly recommended from the most respectable sources.—Price 50 and 25 cents a bottle.

Dr. Rawson's Genuine Itch Ointment,

A certain and safe cure for that disagreeable complaint, as well as other irruptions of the skin. Price 37½ cents a box.

Dr. Rawson's Anti-Bilious and Stomachic Bitters,

For weakly and infirm constitutions. Price 37½ cents a box.

Hinckley's Infallible Remedy for the Piles,

A most valuable medicine. Price 50 cents a box.

Thompson's Aromatic Tooth Paste,

For whitening and preserving the teeth—it may be used with the greatest safety. Price 50 cents a box.

Specific Drops for the Tooth Ache,

Which, in almost every case, gives instant relief in that distressing complaint. Price 37½ cents a bottle.

Cooley's Vegetable Elixir, for Coughs, Asthmas, Consumptions, &c.

A very valuable medicine in those complaints. Price 50 cents a bottle.

For sale, in Alexandria, by Dr. *Rich'd H. Little*; in Washington City, by Dr. *David Ott*; in Georgetown, by Dr. *John Ott, Otho M. Linthicum & Co.* and *Nathaniel Jewitt.*

James Kennedy & Son,

RESPECTFULLY inform the public that they have just received from

LEE's MEDICINE STORE,

No. 46, Maiden lane, New-York a fresh supply of the following valuable MEDICINES:

Hamilton's Worm destroying Lozenges,

Which have within sixteen years past cured an immense number of persons of both sexes of every age and in every situation, of various dangerous complaints arising from WORMS, and from obstructions or foulness in the stomach and bowels.

This medicine bears no analogy whatever to others of similar titles so commonly complained of as operating with violence; on the contrary a particular excellence of this remedy is its being suited to every age and constitution. It contains nothing but what is perfectly innocent & is so mild in its operation that it cannot injure the most delicate pregnant lady or the tenderest infant of a week old should no worms exist in the body; but will without pain or griping cleanse the stomach and bowels of whatever is foul or offensive, and thereby prevent the production of worms and many fatal disorders. The lozenges are particularly efficacious in carrying off all gross humours and eruptions, feverish and bilious complaints, and are the safest and mildest purgative that can be used on any occasion.

Description of Worms, and the symptoms by which they are known.

Worms which infest the human body are chiefly of four kinds viz.—The Teres or large round worm; the Ascarides or small maw-worm; the Cucurbitine or short flat white worm; and lastly, the Tænia or tape-worm, so called from its resemblance to tape. This is often many yards long and is full of joints. It is most hurtful and most difficult to remove.

Among the symptoms attending worms are—disagreeable breath, especially in the morning; bad and corrupted gums; itching in the nose, and about the seat; convulsions, epileptic fits, and sometimes privation of speech; starting and grinding of the teeth in sleep; irregular appetite, sometimes loathing food and sometimes voracious; purging with slimy and fœtid stools; vomiting; large and hard belly; pains and sickness at the stomach; pains in the head and thighs and lowness of spirits; slow fever with small and irregular pulse; a dry cough; excessive thirst; sometimes pale and unhealthy countenance and sometimes the face bloated and flushed.

Persons afflicted with any of the above symptoms should have immediate recourse to Hamilton's Worm Destroying Lozenges, which have been constantly attended with success in all complaints similar to those above described.

A dose of this medicine given occasionally during the warm season, will effectually prevent "the vomiting and purging of children"—a dreadful disorder, which annually destroys thousands of the infant part of our citizens. It is likewise the mildest and most certain remedy known, and has restored to health and strength a great number when in an advanced stage of this fatal complaint. Particular and plain instructions are given for every part of the necessary treatment in such cases.

Children generally take this medicine with eagerness; having a pleasing appearance, and an agreeable taste.

The Restorative Powder for the Teeth and Gums.

For the prevention and cure of BILIOUS AND MALIGNANT FEVERS is recommended

HAHN's ANTI-BILIOUS PILLS

THIS Medicine has been attended with a degree of success highly grateful to the inventor a feelings in several parts of the West Indies and in the Southern and Middle States, &c.

The testimony of a number of persons can be adduced, who have reason to believe that a timely use of this salutary remedy has, under Providence, preserved their lives when in the most alarming circumstances.

Facts of this conclusive nature speak more in favour of a medicine than columns of pompous eulogy founded on mere assertion.

It is not indeed presumptuously proposed as an infallible cure, but the inventor has every possible reason that can result from extensive experience for believing that a dose of these Pills taken once in every two weeks during the prevalence of our bilious fevers, will prove an infallible preventive; and further, that in the earlier stages of those diseases their use will very generally succeed in restoring health, and frequently in cases esteemed desperate and beyond the power of common remedies.

The operation of these pills is perfectly mild, so as to be used with safety by persons in every situation and of every age.

They are excellently adapted to carry off superfluous bile and prevent its morbid secretions—to restore and amend the appetite—to produce a free perspiration and thereby prevent colds which are often of fatal consequences. A dose never fails to remove a cold if taken on its first appearance: they are celebrated for removing habitual costiveness—sickness at the stomach and severe head-ache—and ought to be taken by all persons on a change of climate.

They have been found remarkably efficatious in preventing and curing disorders attendant on long voyages, and should be procured and carefully preserved for use by every seaman.

Hamilton's Elixir,

A sovereign remedy for colds, obstinate coughs, asthmas, sore throats, catarrhs, and approaching consumptions.—To parents who have children afflicted with the *HOOPING COUGH*, this discovery is of the first magnitude, as it affords immediate relief, checks the progress, and in a short time entirely removes the most cruel disorders to which children are liable. The Elixir is perfectly agreeable, and the dose so small that no difficulty arises in taking it.

Hamilton's Grand Restorative,

Is recommended as an invaluable medicine for the speedy relief and permanent cure of

Nervous Disorders	Violent cramps in
Consumptions	the stomach and
Lowness of spirits	back
Loss of appetite	Indigestion
Impurity of b'ood	Melancholy
Hysteric'l affection	Gout in the stomach
Inward weaknesses	Pains in the limbs
and debility	Relaxations, etc.

Hamilton's Essence and Extract of Mustard.

A safe and effectual remedy for acute and chronic rheumatism, gout, rheumatic gout palsy, lumbago, numbness, white swellings, chilblains, sprains, bruises, pain in the face and neck, etc. etc.

Lee's Ointment for the Itch.

Warranted an infallible remedy at one application, may be used with perfect safety by pregnant women, or on infants a week old, not containing a particle of mercury or any dangerous ingredient whatever, and not accompanied with that tormenting smart which attends the application of other remedies.

Hahn's true & genuine German Corn Plaister.

An infallible remedy for corns, speedily removing them root and branch, without giving any pain.

The Genuine Persian Lotion,

So celebrated among the fashionable throughout Europe, is an invaluable cosmetic, perfectly innocent and safe, free from corrosive and repellent minerals, the basis of other lotions, and of unparalleled efficacy in removing blemishes of the face and skin, freckles, pimples, inflamatory redness, scurfs, tetters, ringworms, sunburns, prickly heat, &c.

Hahn's genuine Eye Water,

A sovereign remedy for all diseases of the eyes, whether the effect of natural weakness or of accident.

Tooth Ache Drops.

The only remedy yet discovered which gives immediate and lasting relief in the most severe instances.

Lee's Infallible Ague and Fever Drops

For the cure of agues, remittent and intermittent fevers.

☞ At the place of sale pamphlets may be had gratis, describing cures performed by the above medicines; the number, importance and respectability of which, fully justify every article of this advertisement.
